Programming Languages – C++, C Programming, Python (basics).

Tools – GitHub, Git, Redux Toolkit, VS Code.

PROJECTS

- **Student Project Manager**
  Description: A production-ready, full-stack web application for managing student projects, used by 100+ students in my collage, it is the innovative solution to manage mini project lab of our collage.

  Key Technologies: MERN stack (MongoDB, ReactJS, NodeJS, ExpressJS) ,Tailwind CSS, Cloudinary, jsonwebtoken, bcrypt, react-hot-toast.
  Secure Authentication: Utilizes jsonwebtoken and bcrypt for student registration and login.
  Project Management: Students can add individual or group projects and submit files through admin-issued notices.
  Admin Tools: Admins can issue notices, manage and download project files, assign marks, and delete projects.
  Dynamic Dashboards: Students can update their personal information and view project marks in real-time.
  [Frontend](#) [Backend](#) [Live Link](#)

- **Job Mitra (MERN Stack Web Application):**
  Developed a job portal connecting employers with job seekers.
  Implemented features for job postings, candidate searches, and job applications.
  Used MongoDB, Express.js, React.js, and Node.js (MERN Stack).
  Ensured secure user authentication with JWT.
  Designed for full responsiveness across devices.
  Built an admin dashboard for user and job management. [Code](#) [Link](#)
